reducing costs of care & maximizing outcomes

SAFETY IN CAREGIVING. DEFINED

OUR CUSTOMERS

ProCare Medical is a provider of injury reduction products and services for acute and post acute healthcare organizations. With an emphasis on solutions to allow quality care in the facility setting and reducing injuries to caregivers, the product and service solutions we offer are geared around safe patient handling and maximizing outcomes for facility management and ownership.

VISION

To be an innovative and leading provider of healthcare capital equipment and related services.

MISSION

Our mission is to build relationships with our customers as we provide lift, transfer, bathing, and related equipment to the healthcare and homecare market. Guided by the commitment to deliver innovative product and service solutions, we will enhance the customer experience through a consultative approach and a caring attitude.

VALUES

Integrity: We are committed to making honest and ethical decisions in the best interest of our customers, and combining faith into our workplace

Flexibility: We are passionate about meeting or exceeding our customer expectations

Teamwork: We are a team that is committed to upholding our values and working together, remembering to treat others as we would want to be treated

Rewarding: We are committed to providing an enjoyable culture and work experience, understanding the needs of family, personal relationships, and giving back to the community.

Learning: We strive to provide true solutions by promoting education and in learning from others, both internally and externally.

AN INTEGRATED SOLUTION

“ProCare Medical has provided us the products and services we need to provide quality care and comply with regulations. They offer superior products at a value to help us drive efficiency and improve our care”

– Mennonite Home, Lancaster PA
